

TIME TO REPLACE YOUR CIJ PRINTER WITH BESTCODE!

Your Innovative Solution For Industrial Printing, Coding & Marking

Neway Packaging specializes in the repair and replacement of most inkjet printers! Our local and knowledgeable service technicians can replace your current inkjet printer with a better, more efficient system. Are you using a **Citronix, Videojet, Domino** or any other outdated inkjet printer to print, mark and code? If so, it's time to replace them with the next best thing in inkjet printing: the **Bestcode** inkjet printer.

BESTCODE OFFERS UNIQUE FEATURES THAT THEIR COMPETITION DOESN'T!

- Minimal maintenance costs
- An easy user interface
- Minimal downtime
- Small footprint
- Low replacement costs
- An icon-based system, similar to an iPhone.
- DIY filter replacement, saving time and money!

BestCode's complete range of IP65 rated marking and coding systems are simplified to allow anyone to operate, minimizing operator touches, extending time between human interaction and lowering total cost of ownership. Widely used in the **food, beverage and healthcare industries** and **designed for extreme environments**.

WHILE OTHER CIJ INKJET PRINTERS ARE STUCK IN THE PAST, BESTCODE PROVIDES:

- 10.4" color touch screen
- OneTouch™ operating system
- AutoOff™ Go Home button
- An up-to-date system
- High speed printing
- True non-contact printing
